

Earth and Space Science

Sept. 26, 2017

Day 1/17

At the end of today's lesson you will;

- Be able explain how scientists engage in argumentation to find the best explanation for a question about the natural world.

Classwork-

- Amplify lesson 1.3: Investigating a Mystery Object on Mars.
- Students will consider the Unit Question: How can we search for evidence that other planets were once habitable?
- Students will engage in argumentation about a real mystery that scientists faced for a few weeks: A jelly-donut-like object appeared in the path of the Opportunity rover on the surface of Mars in 2014.

Homework-

- Finish the Section 1.3 Homework: Reflecting on How Planetary Geologists Get Evidence.
- [Review the Geology On Mars Vocab on Quizlet.](#)
