

# Earth and Space Science

Oct. 3, 2017

Day 2/22

## At the end of today's lesson you will;

- Be able to reflect on how models provide evidence to answer scientific questions.

## **Classwork-**

- Amplify lesson 3.1: "Evaluating New Information from Mars".
- In this lesson, students are introduced to the Chapter 3 Question: *How can we decide which geologic process formed the channel on Mars?*
- Students will use the Evidence Gradient to review and evaluate the evidence they have gathered so far. Then, we will introduced new evidence.

## **Homework-**

- Finish the Section 3.1 classwork.
- [Review the Geology On Mars Vocab on Quizlet.](#)
