

# LIGHT WAVES

NEXT GENERATION SCIENCE STANDARDS

**Mar. 19, 2019**

**Day 4/124**

**At the end of today's lesson you will;**

- *How does light interact with materials?*

**Classwork-**

- **End of Unit Assessment - Light Waves 4.4**
- *Students complete an end-of-unit assessment consisting of sixteen multiple-choice and two written-response questions in which they analyze and interpret data, evaluate evidence, and construct explanations.*
- *The end-of-unit assessment indicates where students fall along the levels of the Progress Build after instruction by measuring their mastery of the specific ideas, both unit-specific science concepts and crosscutting concepts, that comprise each level of the Progress Build.*
- *The end-of-unit assessment also measures students' understanding of important supporting content not explicitly included in the Progress Build.*

**Homework-**

- *Get your Science folder ready for a check.*
