

Apr. 22, 2019

Day 3/143

At the end of today's lesson you will;

- *What causes climate change?*

Classwork-

- **Earth's Changing Climate 1.1, PRE-UNIT ASSESSMENT**
- *Students complete a Pre-Unit Assessment consisting of 19 multiple-choice questions and 2 written-response questions in which they analyze and interpret data and construct explanations.*
- *The Pre-Unit Assessment is diagnostic and designed to reveal students' understanding of the unit's core content—including unit-specific science concepts and crosscutting concepts—prior to instruction by indicating, for formative purposes, where students initially fall along the levels of the Progress Build.*
- *The Pre-Unit Assessment also measures students' understanding of important supporting content not explicitly included in the Progress Build.*
- *As such, the Pre-Unit Assessment offers a baseline from which to measure growth of understanding over the course of the unit.*

Homework-

- *No Homework*
