

Earth and Space Science

Sept. 20, 2018

Day 1/13

At the end of today's lesson you will:

- How can we search for evidence that other planets were once habitable?

Classwork-

- Amplify GOM 2.1.
- In this lesson, students are introduced to Active Reading—a method of reading carefully and attentively, as a scientist does.
- Teacher modeling of this approach helps students see how asking meaningful questions while reading can help one understand and remember what one reads.
- After this introduction, students read an article called “Investigating Landforms on Venus” about how scientists use computer models to explore landforms on Venus.

Homework-

- Complete the “Investigating Landforms on Venus” 2.1.5 Homework.
- Continue to review the Geology on Mars unit vocabulary terms on [QUIZLET](#).
