

Earth and Space Science

Oct. 3, 2018

Day 2/22

At the end of today's lesson you will;

- How can we search for evidence that other planets were once habitable?

Classwork-

- Science Folder Check Today.
- End of Unit Assessment Today. Amplify GOM 3.5.
- Students complete an End-of-Unit Assessment consisting of a written-response question with four parts.
- The End-of-Unit Assessment is designed to provide formative information about students' understanding of the crosscutting concept of systems and system models as it relates to content from the unit.
- It is set in a context related to the Geology on Mars unit, and student performance indicates support students may need or connections to systems and system models that may be built upon in future units.

Homework-

- Finish up the GOM Scientific Argument and reading from GOM Lesson 3.4.
