

Natural Selection

Next Generation Science Standards

Oct. 31, 2018

Day 2/42

At the end of today's lesson you will;

- How are 3 dimensional landscapes represented on a 2 dimensional map?

Classwork-

- Students take a break from Natural Selection to investigate how Topographic Maps are created. We answer the question; "How are 3 dimensional landscapes represented on a 2 dimensional map?" Students use a landform model to create a topographic map..

Homework-

- No Homework.
