

FORCE AND MOTION ENGINEERING INTERNSHIP

Feb. 27, 2020

Day 3/111

At the end of today's lesson you will be able to determine;

- How do forces affect motion?

Classwork-

- **Period 1** - FMEI Day #9
- In this last day of the Proposal phase, interns work to complete their Final Proposals. Interns work with the internship coordinator to convert the Project Summary from Day 4 into the Proposal Introduction, and will convert the Trade-offs Reflection responses they submitted in Day 6 into the Proposal Conclusion.
- At the end of this workday, interns will make final edits and submit the Proposal.
- The purpose of these activities is to provide support to interns as they complete their Final Proposals which describe their optimal solutions to designing supply pods.

Homework-

- Finish up your Day#9 "After-Hours" work.
- Be sure your proposal is ready to be submitted.
