

Natural Selection Unit

Oct. 23, 2019

Day 1/37

At the end of today's lesson you will be able to answer;

- How do individuals in a population get their traits?

Classwork-

- Natural Selection 2.6
- This differentiated lesson is designed to provide students with a targeted review and exploration of key concepts and ideas.
- Based on results of the Critical Juncture Assessment, students will be placed into one of three groups to provide them with differentiated experiences tailored to their particular learning needs.
- This tailored lesson begins with a differentiated Warm-Up and progresses through work in the Simulation, Sorting Tool, and the Amplify Library.
- The purpose of this lesson is to provide opportunities to review key ideas in preparation for deeper learning about natural selection.

Homework-

- Finish up all of the activities in the Natural Selection section 2.6.
